Chief, Information Management Staff

Gary:

STAT
STAT
With regard to your note offering the DO an opportunity to provide a representative to serve in your newly-formed Advanced Workstation Branch, we appreciate the offer but don't feel that we can afford a GS 12-14 officer for full-time effort on this particular activity. We would, however, like to provide input to the very important activities of this branch. We have a number of technically-oriented officers who could serve in a temporary capacity to assist in completing requirements studies, preparing contractor specifications, evaluating contractor proposals, etc. Please contact IMS' Deputy Chief, [redacted] to identify specific DO officers for participation in these, or related, activities on a case-by-case basis.
